EVERYTHING YOU NEED

A T.O.P. Configuration

Being extremely easy to use is certainly one of the most important advantages of SIMPLER compared to others systems in the market.

A dedicated button for each kind treatment, set with the most suitable and scientifically acknowledged parameters for each operations gives to the operator a quick and immediate start up in several fields: ENDODONTICS, PERIODONTICS, SURGERY, THERAPY, IMPLANTOLOGY and WHITENING.

In Surgery, the **Tissue Optimized Pulsing** configuration, the doctor can easily control the Simpler laser beam for the three soft tissue biotype: Fibrous, Normal and Granulation. TOP optimizes cutting and coagulation with a bloodless, painless and quicker healing operations. Simpler laser is an indispensable tool in the daily routine of dental practice.

NaWiGo™ - Built-in Navitagion

SIMPLER offers a world of opportunity and **NaWiGo™** is the key for better dentistry!

Trough **NaWiGo™** a customized web connection, the SIMPLER gets innovative features created to simplify dentistry for beginners and maximize the experience for expert users.

A full list of PRESET TREATMENT PARAMETERS and the NAVIGATION GUIDE will carefully escort the doctor to perform a lot of operations in all tissues with greater efficiency. This system will improve the clinician's ability to perform current procedures faster and more efficiently. A further step to increase both dentist and patient's comfort, easily improves working practice and stimulates growth of the dental practice without risk. The latest cutting-edge laser technology driven by the simplicity.

System Code Upgrade

The SIMPLER laser can be up-graded directly by the user just in few steps. Whenever is required the software could be upgrade from the EASY version to a more detailed and superior level: the advanced ADV+ mode. The Easy mode is a quick access to frequently used functions. The advance version offers a more detailed regulation of the software to whom is interest to customize the operations, change values and pulses. Moreover from this modality trough the **NaWiGo™** is possible to entry to an amazing world of new programs, opportunities and broad the field of treatment. It allows users to browse and download applications from the company website.

Plenty of accessories

SIMPLER is equipped with a wide range of accessories: from the specific handpiece and tips for the surgical treatment to the special ergonomic one for biostimulation. It is furnished of Single use and Autoclavable tips for different operations. Available for the application of Whitening, the single use handpiece and the Arch set for larger areas, can be combined to the LWS Doctor Smile's bleaching gel. A fast and effective cosmetic treatment for a quick return of investment.

Thanks to the great adaptability of such unit, the Simpler can be matched with an universal handpiece for multidisciplinary purposes.
